Applications

- ▶ Airports
- ▶ High Security Sites
- ▶ Cash Centres
- ▶ Critical Infrastructure
- ▶ Perimeter Security HVM
- ▶ Utilities
- ▶ Military Sites

'Flexibility that will withstand extreme forces from high impact collision'

TRUCKSTOPPER 2

TRUCKSTOPPER 2 has been successfully tested at MIRA to BSI PAS68:2007 with both a 7.5 tonne truck and a 2.5 tonne 4x4 vehicle at 40mph (64km/h). The barrier can follow the contour of the ground and follows corners. Once fitted it needs no ongoing adjustment or tensioning of the barrier and the steel is good for 20 year wear, with the only need for re-painting. This unique long life spring barrier system provides a heavy duty flexibility that will withstand extreme forces from high impact collision.

This system can be assembled quickly to block off roadways and can be used as perimeter fencing with the facility to be covered with mild or stainless steel shrouds.

TRUCKSTOPPER 2 PAS68 VEHICLE PERFORMANCE CLASSIFICATION

Vehicle Test Weight	Vehicle Class	Vehicle Speed	Vehicle Angle	Vehicle Penetration	25KG+ Dispersion
V/7500 KG	N2	64	90	3.45	8.50
V/2500 KG	N1G	64	90	0.90	0.00

TRUCKSTOPPER 2 (BSI PAS68:2008) V/7500/N2/64/90/3.45/8.50 PAS 68 Anti-Terrorist Spring Bollard
